Standalone engine

Compare and book car rental suppliers in one array through a state of the art booking engine.

- Full responsive design
- Full display of rules and conditions of contract of car rental provider
- Full display of car type and features
- GDS PNR updated with all information of car booking details
- Payment via credit card
- Provides content and price comparison between multiple suppliers

Merge car rental content with flights from different sources.

- Disparate car content can be integrated and booked on a single platform or in the Flight booking engine
- Car content can be booked with low-cost carrier, consolidator net or nego fares as well as GDS (published fares, corporate) or charter flights
- Car rental content captured via XML from different sources (i.e. AtlasChoice, Cartrawler, Avis, Hertz etc.)
- Price calculation automatically updated to reflect price of car rental per person plus price per person of flight
- Price calculated as total and does not reflect individual prices of car or flight
- Tour operators fares can be mixed with car fare and remain fully invisible
- Seamless real time booking of both flights and car rental
- Possibility to choose different car type with automatic total price update if different car type is chosen
- Automatic verification of opening hours of pick-up and drop off location
- Multiple tracking codes enabled
- Fully PCI DSS compliant

Vertical Integration of IT Solutions for the Travel Industry

The travel industry requires more than ever fully integrated solutions as opposed to patchworks of hard to maintain incompatible software.

Ypsilon provides end-to-end IT solutions for the travel industry ranging from fare management, multi GDS B2B/B2C booking engines and XML API, lowcost carrier content, hotel and car engines, ticketing robots, mid- and backoffice systems, tour-operator modules, cache data in diverse formats (EDF/OTDS/CSV), PCI DSS solutions, fraud prevention systems and payment solutions.

Our goal is to provide our customers with a complete turnkey solution to meet their specific needs at a highly competitive price.
